Paper Submission GUIDE

Title, Author names and affiliations,

Abstract, Keywords and Graphical abstracts.

1. Title

Concise and informative. Titles are often used in information-retrieval systems and careful thought should be given to them.

2. Author names and affiliations

Please clearly indicate the given name(s) and family name(s) of each author and check that all names are accurately spelled. Present the authors' affiliation addresses (where the actual work was done) below the names. Indicate all affiliations with a lower-case superscript letter immediately after the author's name and in front of the appropriate address. Provide the full postal address of each affiliation, including the country name and, if available, the e-mail address of each author.

3. Abstract

A concise and factual abstract is required not exceeding 800 words excluding spaces. The abstract should state briefly the objects and methods of the research, the principal results and major conclusions.

4. Keywords

Immediately after the abstract, provide a maximum of 6 keywords, using American spelling and avoiding general and plural terms and multiple concepts (avoid, for example, 'and', 'of').

5. Graphical abstracts

Please see examples below-
